

One Ocean Foundation - Partner with us

One Ocean Foundation is a non-profit organization based in Italy with an international outlook, committed to the protection of the marine environment through scientific, educational, cultural, and advocacy initiatives.

Why the ocean matters

The ocean is essential for the future of our planet:

- Regulates the global climate
- Produces over 50% of the oxygen we breathe
- Absorbs about 30% of the CO₂ generated by human activity

*Yet today, the ocean is under threat:
pollution, climate change, and biodiversity loss are
undermining its balance.*

Our mission is to accelerate concrete solutions to safeguard the ocean and the planet, creating real value for businesses, institutions, and communities.

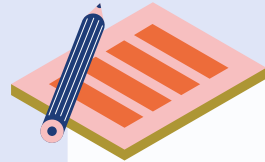

Our approach

Phase 1

Awareness

We provide businesses with a powerful assessment tool to measure and disclose their impact on marine ecosystems.

Phase 2

Definition

We help businesses identify their key environmental challenges and provide them with specific areas of intervention where they can take action.

Phase 3

Activation

We offer a portfolio of high-impact projects that businesses can support to actively contribute to ocean conservation.

Let's get involved

We focus our efforts on key areas that drive meaningful changes for ocean health.

By addressing these key areas, we create lasting, positive change for the ocean and future generations.

**Scientific research
and conservation**

**Education and
awareness**

**Business
Engagement & ESG**

**Art, culture
and events**

Our key Projects 1/2

At One Ocean Foundation we are dedicated to advancing ocean protection through high impact projects on a global scale.

Ocean Impact Initiative

The first science-based framework designed to address the business impacts on marine ecosystems.

Blue Forest

The largest *Posidonia oceanica* reforestation project in the Mediterranean sea.

Canyon of Caprera

In collaboration with high level international institutions to increase knowledge on cetacean species and ensure the protection of this biodiversity hotspot.

Our key Projects 2/2

We unite scientific expertise and passion to drive impactful solutions for conservation and restoration of marine ecosystems.

Blue Education

Environmental education programs reaching 10,000+ students.

Blue Economy Summit

Forums promoting the blue economy as a driver of sustainable development.

Ocean Week

Annual recurring event with 8,000 participants and over 50 international speakers overall.

Why become a partner

1. Strengthen ESG leadership and corporate reputation
2. Strategic visibility and networking opportunities
3. Co-create innovative projects
4. Be part of our main events and panels
5. Make a tangible contribution to ocean conservation

Be part of the change

Joining One Ocean Foundation means taking an active role in the ecological transition, strengthening your ESG leadership, and communicating authentic values through concrete and measurable actions.
